Student at West University of Timisoara 🔗   2023 – 2026
Computer Science

CERTIFICATES

- Cambridge Assessment English B2 Level
- ECDL Profile Certificate

PROJECTS

Logic Gate Simulator
Developed an app for designing and simulating logic gate systems. Users can build, save, and load custom logic circuits, making it easier to experiment with and understand digital logic concepts.

Developer Portfolio
Built a portfolio to show my work and what I'm passionate about in software development.

Fluff Libraries
Developed a set of small, versatile, and modular libraries, designed to be efficient and easy to use in different projects.

Quill
Built a cross-platform package manager with a command-line interface for installing and updating tools and libraries.
